

CONCRETE REPAIR FOR EXISTING CONSTRUCTION

INCAP PATCH

INCAP PATCH is a single component, self-bonding, high strength concrete patching and repair mortar for concrete and masonry.

This high-strength concrete patch comes in a powder, that when combined with water, seals chips, cracks and other imperfections in concrete. INCAP PATCH is the highest bonding single component grout.

INCAP PATCH

- High flexural strength, impact resistance and compressive strength
- Resistant to wet freeze-thaw cycles
- Does not shrink after placement
- Excellent bonding properties
- Contains no calcium chloride
- Does not rely on two component system for strong polymer bond
- Easy to mix and install

Packaging

5 kg or 25 kg re-sealable pails or paper bags

Product Code

PATCH 50
PATCH 30

Applications

The versatility of INCAP PATCH makes it an ideal product for filling and repairing form tie holes, pipe sleeve holes, honeycombs, post tensioned pockets and cracks. It can also be used to:

- Finish walkways and driveways
- Fix chipped columns
- Fix uneven form marks
- Repair damaged concrete elements
- Strengthen other weak mixes as an additive
- Typically used in areas exposed to high wear and tear to provide a high-strength topping
